

# Letter to the Imam

In the Name of God the Merciful the Compassionate

His Holiness Ayatollahol-'ozmaa Imam Khomeini,

Our Worthy Father:

The People's Mojahedin Organization of Iran expresses deep apology for disturbing you at this time when you stand more in need of being left alone and given peace of mind. We offer the sincerest good wishes for your good health and long life. We trouble you only because of the need we have felt to inform you of several matters which reflect on the state of our nation:

1) The traitor shah, at the urging of his American bosses, has embarked for the heartland of the region, so that he can be conveniently located in the center of activity of the SAVAK agents and fugitive hatchetmen of his regime under the protective umbrella of Sadat and Israel, in order to continue his conspiring against the Iranian Revolution from close at hand. It was in connection with this action that rumormongers were at work during the period of the Imam's hospitalization spreading poisonous gossip that was contrary to the concerns of every Iranian individual.

It must be noted that, at the very same time, another minion of the United States, namely the quisling Shahpur Bakhtiyar, stepped up his activities with an unprecedented flurry of meetings and consultations.

Prior to this, we saw, simultaneous with a sabre-rattling show of force, the use of the device of the Pakistan Conference, which the U.S. set up with a view to making its dependent reactionary leaders impervious by deflecting the rising wave of anti-American colonialist feeling amongst the people of the region, a wave which was generated under your leadership.

All of this demonstrates how America, in the face of the ineluctable logic of the people and of the history of the world, vainly insists on trying to divert public opinion in the countries under its domination from attention to their principle enemy, while you have repeatedly emphasized that the U.S., this satanic force threatening the world, is the main adversary, whereby all colonialists economic, political, military and cultural contracts and agreements with it must be abolished.

2) We regret to inform you that up to the present time your anti-imperialist directives regarding the severance of all colonialist ties have not been carried out, a matter which has become a source of concern for all revolutionary Moslems in Iran, considering what has been mentioned above.

3) Moreover, in the hurly-burly of the elections for the National Assembly, we are experiencing a critical peaking of factional strife in Iran, pitting party against group, with particular pressure against the PMOI. All of this is an expression of a tendency which has been developing in our country, whereby no change of stance has taken place with respect to America, compared with the situation a month ago, where the Mojahedin were regarded as the
